SNEHAL VALMIK GHAYWAT

Electronics & TelecommunicationEngineeringStudent|AspiringSoftware Developer
NashikMaharashtra,India | +917020085552 | ghaywatsnehal05@gmail.com

PROFESSIONAL SUMMARY

Electronics & Telecommunication Engineering student (3rd Year, SPPU) with a Diploma in Information Technology (84.88%, MSBTE). Strong foundation in C, C++, Java, and core Data Structures & Algorithms, with hands-on experience building an Android application with an AI-powered chatbot and PHP/MySQL admin backend as part of a team project. Certified in Data Science and Data Analytics. Seeking to apply analytical and programming skills to Software Development, AI/ML, or Data Science roles.

EDUCATION

B.E. in Electronics & Telecommunication Engineering — 2026 – (Ongoing, 3rdYear)
Sandip Institute of Engineering and Management (SIEM), Mahiravani, Nashik — Savitribai Phule Pune University (SPPU)

Diploma in Information Technology — 2025|Nashik,Maharashtra
Sandip Polytechnic, Mahiravani, Nashik — Maharashtra State Board of Technical Education (MSBTE)
Percentage: 84.88%

Secondary School Certificate (10th) | Maharashtra State Board — 2022 | Nashik, Maharashtra
Score: 88.60%

TECHNICAL SKILLS

Programming Languages: C++, Java, Python
Web Technologies: HTML, CSS, PHP, Bootstrap
Database: MySQL
Fundamentals: Computer Networks, Digital Circuit Analysis
Core Subjects: Data Structures & Algorithms, DBMS, Object Oriented programming in Java
Tools & Technologies: GitHub, VS Code

PROJECTS

SP Chatbot – Android Application with AI-Powered Campus Assistant — 2024 – 2025
Team Project (4 members) | Department of information technology Engineering, Sandip Polytechnic, Nashik | Tech Stack: Android, PHP, HTML, CSS, Bootstrap, MySQL

- Designed and proposed a centralized Android application to solve fragmented student-faculty communication, replacing manual notice-board and email-based systems with a single integrated platform.
- Architected core modules including a dynamic timetable system, real-time event notifications, faculty information directory, and a campus navigation route map.
- Integrated an AI-powered chatbot to handle student queries on academics, campus life, and general information, enabling 24/7 automated support.
- Built a PHP, HTML, CSS, Bootstrap, and MySQL-based admin panel allowing institutional staff to manage and update timetables, events, and faculty data in real time.
- Conducted feasibility analysis (technical, financial, time, operational) and authored Data Flow Diagrams (Level 0 & 1) and Use Case Diagrams to define system architecture before implementation.
